

## CRISIS NOW VERY GRAVE

Wilson Will Go Before Congress.

ASKS JOINT SESSION

President Will Explain Submarine Controversy.

Washington, April 19.—President Wilson will lay the submarine crisis before congress. In the hall of the house of representatives, with congress seated before him in joint session, the president will speak the last words of the United States to Germany in the grave situation which has kept the two nations on the brink of a break for nearly a year.

Developments yet undisclosed and of the most solemn importance are expected to follow quickly.

An ultimatum to Germany and even the severance of diplomatic relations are two most likely eventualities.

The president will receive at the White House Chairman Stone and Flood of the congressional committee dealing with foreign affairs, and Senator Lodge and Representative Cooper, the ranking Republican members.

The oft repeated statement from the White House and by administration officials that, before breaking off diplomatic relations with Germany, the president would fully advise the heads of the foreign affairs committees, was recalled in connection with the announcement of the meeting and it was everywhere regarded as the forerunner of a development of utmost gravity.

All official Washington, fearing the worst and hoping for the best, is practically in ignorance of the details of the president's plans.

Soon after the cabinet had departed the president summoned Secretary Tumulty. He instructed him to go to the Capitol and arrange for a joint session of house and senate.

The president did not state his purpose to his secretary and instructed him specifically to inform the leaders he had no knowledge of the president's design further than that important affairs were to be communicated to congress.

## WAR ZONE EDICT HAS CAUSED MUCH STRIFE

Washington, April 19.—Complications between the United States and Germany began piling up from the moment the submarine war zone was declared around the British Isles.

With all Europe afire in the war the eyes of the world were turned upon the United States in expectancy of developments that would threaten to draw the greatest neutral into the conflict. They were not long in coming.

With the torpedoing of the British liner Falaba, the first American life was lost. Then in quick succession came the attacks on the Gulfstream and the Cushing, American ships. The sinking of the American sailing ship William P. Frye raised another issue, but it involved different questions.

Then came the sinking of the Lusitania—almost a year ago, in which 115 Americans, many of them women and children, were lost, in a submarine attack which subsequent events proved was known of in advance to the German embassy in this country and which was guardedly advertised in the daily papers in the form of a warning to Americans to keep off belligerent ships traversing the war zone.

## TEUTON PIRATE GETS LIFE

Captor of British Steamer Pleads Guilty in Federal Court.

Wilmington, Del., April 19.—Ernest Schiller, who forcibly took possession of the British steamer Matoppe, off Sandy Hook, March 29, terrorized the crew and compelled the captain to change the ship's course, was sentenced to life imprisonment in the United States district court here.

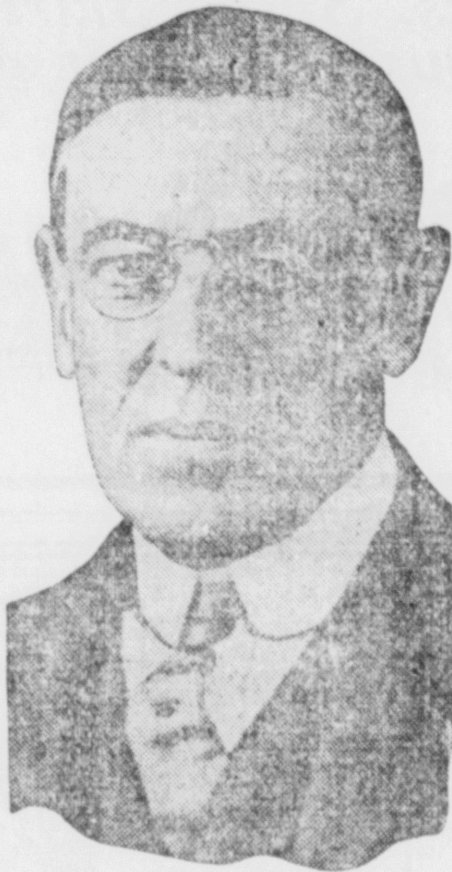

Schiller pleaded guilty to the charge of piracy.

## Destroyer Put in Commission.

Philadelphia, April 19.—The torpedo boat destroyer Porter, one of the largest and fleetest vessels of its type in the United States navy, has been placed in commission at the Philadelphia navy yard. The Porter's contract speed is 29½ knots an hour.

## LANSING REFUSES TO INFORM BERNSTORFF

Washington, April 19.—Count von Bernstorff, the German ambassador, calling upon Secretary of State Lansing by direction of his government, almost at the moment the president was arranging the joint session of congress, was informed that the secretary could not discuss the situation with him at this time.

It was evident that the ambassador was seeking information of the American government's plans and that it had been decided he should not have it.

The ambassador did state to Secretary Lansing, that while under no circumstances could Germany give up the submarine, because it was being used in retaliation for Great Britain's food blockade, his country would attempt to use the submarine in accordance with international law and Germany's assurances to the United States.

He added that in any case where instructions to submarine commanders were violated, reparation would be made, in accordance with the assurances given in the Lusitania, Arabic and other cases.

Secretary Lansing told the ambassador he would see him again in a few days.

## GIRL OF SIX CATCHES PRISONER.

Billings, Mont., April 19.—Opal Hartzell, a six-year-old girl, will soon receive \$50 reward for information leading to the arrest of Harry Hayes, who violated his parole in Iowa, after having been sentenced to ten years' servitude on a burglary charge. She is the daughter of the sheriff at Anaconda. While looking at some photographs of men wanted in her father's office she identified a "trusty" in the kitchen as being one of them. Hayes admitted his identity.

## DYE MEN INVEST MILLIONS

Pennsylvania Concerns Hope to Build Up Industry.

Pittsburg, April 19.—Figures made public show that \$30,000,000 has been appropriated by industrial concerns for the construction in the Pittsburg district of byproduct coke ovens, while an additional \$10,000,000 will likely be appropriated in the near future. With these projects completed authorities say western Pennsylvania will take a commanding position in the dyestuffs and the chemical industry because of the byproducts incident to the manufacture of coke.

## INDIAN SHOTS COMPANION

Yellow Bird Wounded Twice Following Quarrel.

Wagner, S. D., April 19.—Yellow Bird, an Indian living near Wagner, was shot and probably mortally wounded by a fellow Indian, who is unidentified, while the pair was driving from town in a wagon. Both were intoxicated, it is said, and Yellow Bird is said to have pushed his companion off the seat on which they were riding.

This enraged the man, who drew a revolver and fired three times, two shots taking effect.

# DIPLOMATIC BREAK SEEMS SURE GERMANY NOW HAS FINAL NOTICE

President Wilson Informs the Joint Session of Congress of His Action in the Matter

Burden Now Upon the German Empire in Regard to the Future Actions of the U. S.

## WILL BREAK RELATIONS

Washington, April 19.—President Wilson told the joint session of congress that he will break off diplomatic relations with Germany unless the submarine policy now being carried on by that government is stopped.

## TERRIBLE EXAMPLE OF INHUMANITY

Washington, April 19.—"Unless the imperial German government now immediately declares and effects the abandonment of the present methods of warfare against passenger and freight carrying vessels this government has no choice but to sever diplomatic relations with the government of the German empire altogether."

This was President Wilson's declaration to the joint session of congress this afternoon. Continuing the president said: "I keenly regret the possibility of the action contemplated, which I feel sure all Americans feel."

President Wilson opened his address by recalling the history of the submarine blockade and its results. "Again and again Germany gave the United States assurances which were repeatedly broken. The most recent and the most shocking instance was the destruction of the French steamer Sussex, which must stand forth as the sinking of the Lusitania did, as singularly tragical and unjustifiable, constituting a truly terrible example of the inhumanity of submarine warfare as the German commanders for a year have conducted it. If this instance stood alone some disavowal, some explanation, some evidence of criminal mistake or wilful disobedience of the commander of the vessel that fired the torpedo might be sought or entertained. Unhappily it stands alone. It is but one instance in which the United States has very patiently tried to remain friendly with Germany. I hope I have your support."

## Takes Things Cool

(By United Press)  
Washington, April 19.—While President Wilson was telling the joint session of congress about the submarine issue and the note he had dispatched to Germany, Ambassador Bernstorff was lunching quietly at an exclusive club.

## Felix Diaz Revolt New Complication

(By United Press)  
El Paso, April 19.—With the hunt for Villa halted, awaiting the confirmation of the bandit's death, a Felix Diaz revolt has popped up. Reports of United States officials who have investigated are convinced that Felix Diaz is prepared to start a revolt as soon as the United States troops are withdrawn, and that financial interests in the United States favoring intervention are backing the Diaz movement.

## Demand Removal of Troops from Mexico

(By United Press)  
Mexico City, April 19.—An official message says that the Mexican ambassador at Washington has been instructed to demand that the American troops be removed from Mexico on the ground that Villa's bandit hands are now completely broken up. It is not indicated whether this is a new demand or an official announcement of the old one.

## Troop Reinforced 2,300 go to Mexico

(By United Press)  
San Antonio, April 19.—The government is sending 2,300 more troops into Mexico, the officials face the problem of filling the gaps on the border as only a handful is left. The Texas militia has expressed a desire to co-operate.

## FRENCH PRISONERS TAKEN

Berlin, April 19.—An official report says the Germans captured the French position at Steinbruch near Verdun, with 100 prisoners.

## Made Record Flight in Mexico in Aeroplane

Lieutenant Edgar S. Gorrell  
Lieutenants Edgar S. Gorrell and Herbert A. Dargue, now with General Pershing's troops in Mexico, made a record flight the other day when they went from San Antonio, in Chihuahua, to Columbus, N. M., a distance of more than 350 miles in less than four hours. They made a single stop, that at Casas Grandes, where they heard reports that Villa had died of his wounds.

Lieutenant Herbert A. Dargue  
Lieutenant Dargue said, "There seems to be no doubt that Villa was wounded; no conversations with natives and with physicians having convinced me that he was shot through both legs and one of them being broken by a bullet, while another shot lodged in his stomach. A man in that condition without medical attention could scarcely live long."

## MEXICAN SITUATION

Mexican ambassador asks recall of troops.  
Felix Diaz reported organizing a revolt.  
Combining new territory for Villa.  
2,300 additional troops sent into Mexico.

# SENATE HAS WAR FEVER

Passes Bill for One Million Men.

ALL AMENDMENTS FAIL

Scenes of Excitement Mark Action on Measure.

Washington, April 19.—An army reorganization bill that would produce regular army and reserve military forces in the United States aggregating a million men was passed by the senate without a record vote.

It is a substitute for the Hay bill, passed by the house, and the differences will be worked out in conference.

On the eve of a joint session of the houses of congress to hear a message from the president on grave international issues, the senate hastened completion of the bill amid scenes of excitement, repeatedly rejecting all amendments tending to reduce the proposed strength of the army.

In the closing hours of debate the senate made provisions for a regular standing army with a peace strength of 250,000 men, as compared with 140,000 in the Hay bill, which passed the house.

The senate reined after a close fight the plan for a federal volunteer army reserve force calculated to aggregate 261,000 men and federalized the national guard forces of the states at an estimated strength of 280,000 men.

## College Reserve Corps.

In addition to this combined regular and reserve force of 790,000 men an amendment was passed to create a school and college reserve corps in time of war or threatened war, which would recruit a force of trained young men, schooled by officers of the regular army, the estimated strength of which is estimated anywhere from 200,000 to 400,000.

"We are creating here a peace army of a million men," declared Senator Myers, in supporting an amendment of Senator Reed to make the regular army 200,000.

The senate had agreed previously by a vote of 43 to 37, to an amendment by Senator Brandegee increasing it from the proposed strength of 180,000 to 250,000.

The Reed reduction proposal was rejected, 42 to 31, after a brief speech by Senator Williams, in which he referred to the solemnity of the occasion which would confront congress.

## Asks Pointed Questions.

"Are we, are we not threatened with war?" asked Senator Williams. "Are we, are we not threatened with war from Mexico; are we or are we not threatened with war over the submarine controversy?"

"Have we not been called to assemble in joint session, the solemn purpose of which we do not, ourselves, definitely understand?"

"If the army cannot exceed a certain number except in a state of threatened war, we are now in a state of threatened war if the president of the United States thinks so."

"For myself I think we are pretty seriously threatened with international difficulties, both from the east and the south."

The apparently grave developments of the few hours preceding the passage of the bill also probably served to save the volunteer army provision.

Champions of the national guard fought it bitterly in the committee of the whole, and it was retained by a vote of 34 to 32.

## WORK ON OIL WELL IS SLOW

Baker and Miles City Business Men Unite in Drilling.

Baker, Mont., April 19.—Baker and Miles City business men are drilling for oil here. A company has been organized. Work on the well is slow for the reason that the soil does not readily mix with water.

Two other companies, the Treasure State Oil and the Kingmont Petroleum, will commence operations soon.

## WAITE SANE, BUT ABNORMAL

Alienists Report to the New York Prosecutor.

New York, April 19.—Alienists, who spent more than an hour examining Dr. Arthur Warren Waite, confessed slayer of his father-in-law, John E. Peck, a wealthy drug manufacturer of Grand Rapids, Mich., reported to District Attorney Swann that in their opinion Waite is sane, but somewhat abnormal.

## Not an Ultimatum no Time Limit Set

(By United Press)  
Washington, April 19.—President Wilson has dispatched to Germany the note declaring that she must change the present submarine methods in use by that country immediately if friendly relations are continued with the United States. He then addressed the joint session of congress telling them in detail what he had done. The message differs from an ultimatum in that no time limit has been set.

## Combing Territory Around Namiquipa

(By United Press)  
With the American Army in Mexico, April 19.—United States troops are combing the territory around Namiquipa on the theory that Villa has doubled on his tracks going back after the Guerrero fight and is in hiding near that city.

## Chief Staff Scott Seeks Information

(By United Press)  
Washington, April 19.—Chief of Staff Scott has not gone to San Antonio to succeed Gen. Funston, but to spend several days with him in canvassing the Mexican situation, going over it solely for the purpose of getting information for the department's use.

## No Cooperation in Villa Hunt

(By United Press)  
Washington, April 19.—The seeming lack of cooperation by Carranza in the hunt for Villa which is hampered home in the official reports has raised the official air gravity to a degree that even the German situation has failed to submerge.

## Will Return Papers

(By United Press)  
Washington, April 19.—Secretary Lansing has informed Ambassador Von Bernstorff that the papers seized when Von Angel was arrested will be returned.

## Passengers Train Into Mississippi

(By United Press)  
La Crosse, April 19.—The Burlington passenger train No. 54 was derailed and plunged into the Mississippi river two miles and a half below Desoto this morning, the only personal injury being the engineer. The locomotive and baggage car were submerged. High water in the vicinity of Desoto is delaying traffic.

## Buckman's Expense

St. Paul, April 19.—The official report of Former Congressman Buckman filed with the secretary of state shows that he has expended \$63.52 in his campaign for the republican nomination.

**City Manager  
Advance Step**

Des Moines, Iowa, April 19—Inter-

of the state in the commissioner-man-  
ager form of city government, accord-  
ing to officials of the Des Moines  
Chamber of Commerce, who recently  
brought to this city J. M. Switzer,  
city commissioner of Dayton, Ohio, to  
explain to those interested in the  
system employed by the city man-  
agers and results obtained from the  
new form of municipal administra-  
tion.

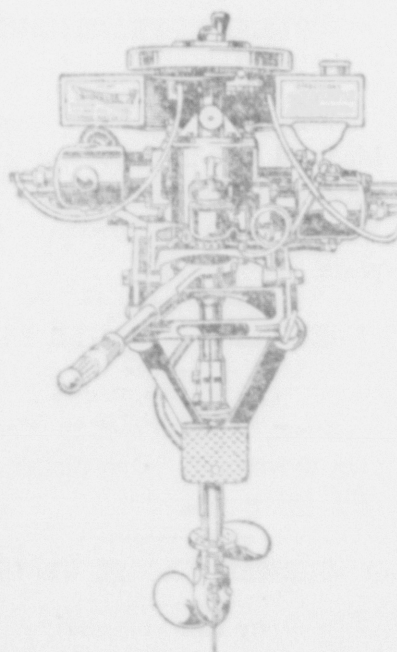

"We believe, after two years' ex-  
perience with it, that the commis-  
sion-manager form is the best form  
of city government of which we  
know," said Mr. Switzer.

He said the commission plan of  
government adopted by Des Moines  
and many other cities throughout  
the country was a step in advance  
of the old form of municipal adminis-  
tration, but states that the commis-  
sion-manager form is a step in ad-  
vance of the commission form and  
predicted that the idea would spread  
until it had been generally adopted.

baker, you SAVE from  
\$250 to \$400**

This \$250 to \$400 represents the difference between the price of  
a Studebaker and the price of any other car that equals it in  
value.

The reasons for this difference are immaterial to you as a buyer.  
What you WANT is the car that gives the most for its price.  
And when you find, as you will, that cars with the same power,  
size and quality that the SERIES 17 Studebaker offer cost hun-  
dreds of dollars more, make the salesman tell you WHY.

If a car gives no more, there's no reason at all for paying a higher  
price, is there? Just see these SERIES Studebakers. Make  
your own comparisons with other cars—then ask the other sales-  
men why THEY want from \$250 to \$400 more than the Stude-  
baker prices? Thirty minutes spent in making such comparisons  
will save you several hundred dollars.

## WOMAN'S REALM

### GAVE SPLENDID CONCERT AT CHURCH

Augsburg Glee Club Wins Plandits of Large Audience at Bethlehem Lutheran Church

PRES. GEO. SVERDRUP SPOKE

Tribute Paid to Grieg, Audience Standing as Chorus Sang "Den Store Hvite Flok"

An audience filling Bethlehem Norwegian Lutheran church Tuesday evening had the inestimable pleasure of hearing the splendid concert given by the Augsburg Glee club of Augsburg Seminary, Minneapolis. By many it was considered the best male chorus singing heard in the city. For precision and artistic rendition of the many numbers, a varied selection of high grade sacred and lyrical songs, the Augsburg Glee Club is unexcelled. The soloists were excellent, Harry Anderson being heard in the "Ninety and Nine" by Edw. Campion, and Grieg's composition. Melvin J. Olson sang very acceptably the solo, "Solefaldsang," by Ole Olsen.

Prof. George Sverdrup, president of Augsburg Seminary, gave a short address and spoke of the place music had in the life of the Scandinavians. He spoke of the seminary which was founded in order to provide education for men who wished to enter the ministry of preaching the gospel in the Lutheran church among Norwegians settled in America. It had three departments—a theological, a college and a preparatory department.

ment. The seminary was 45 years old. From the theological department there have been graduated 393 young men with the degree candatus theologiae; and from the college department 241 young men with the degree B. A.

Rev. M. L. Hostager, pastor of the local church, praised the young men for the fine entertainment provided. He told of the labors of a minister, of the heart burning connected with it, and the struggles attending service in the ministry.

Grieg's "Den Store Hvite Flok" was the last number sung and after the explanatory remarks of Director Harry Anderson, the audience rose to their feet and remained standing as the chorus sang the selection from the grand master, a silent tribute to one who gave to music his best.

### TEACHERS' COTTAGE PLAN

Cottage Erected by the Community is Teachers' Residence and a Community Center

Teachers' cottages, erected by the community in or near the school-house, and used not only as the teacher's residence, but also as the community center, are advocated in a bulletin prepared by R. S. Kellogg and distributed by the department of interior through its bureau of education to county superintendents and other officers in charge of rural schools. The bulletin describes the movement for teachers' residences in rural districts and gives plans for cottages of various sizes and types.

Lack of suitable boarding accommodations is one of the most serious difficulties in the way of securing suitable teachers for country schools, the bulletin declares. There are more than 200,000 rural school districts in the United States and over 16,000,000 children of school age who live in the country or in towns of less than 2,500 population, yet it is impossible because of the living conditions to get teachers of the highest type to remain in the country.

Mr. Kellogg says: "Many farm houses have no accommodations what ever for a teacher and often kitchen, living room and dining room are combined in one, with no heat in any other room in the house. The farmer and his family have to spend most of their time working indoors or out, eating and sleeping. Their occupations and hours of labor in no way correspond to those of the teacher, which increases the difficulty of fitting the teacher's necessary habits to those of the farmer with any satisfaction to either. A good teacher must spend a considerable amount of time almost every evening upon school work, for which a quiet, comfortable room is essential. If she insists upon such a room when she goes to board in the country she is likely to be considered 'stuck up' and exclusive. If she gets a room by herself it is often unheated and too uncomfortable for study in cold weather.

"On the other hand, if the teacher is forced to spend her entire time in the living room with the rest of the family, she has no opportunity to prepare properly for her school duties, and is also very likely to be drawn unavoidably into neighborhood gossip and factional disputes to the detriment of her teaching influence. Many of the better situated families in the country districts who have the facilities, do not care to take a steady boarder, so that, if a teacher gets a place to board at all she may be forced to go to farm houses where only the barest accommodations can be secured."

It is because of these conditions that the teachers' cottage movement has developed rapidly in the past few years, until, according to an investigation by J. C. Muernan of the bureau of education, recorded in the bulletin, there are now one or more teachers' cottages in every state, and in the state of Washington, where the movement has been fostered by Mrs. Josephine Preston, state superintendent of public instruction, there are now 108 of these cottages.

## Smocks Among the Hollyhocks to Knock 'Em Silly this Season

BY MARGARET MASON  
(Written for the United Press)

To have all things harmonious As much as she was able, In home and dress and everything, Essayed aesthetic Mabel.

And so they'd be in rhythm with Her nifty garden smocks The sole blooms in her garden were Stocks, hollyhocks and phlox.

New York, April 19.—When you stand in the midst of your garden, whether it be a sunken Italian one or a raised window box, do you want to look the fairest flower of the lot? If you do, it's very simple, Maud. All you need is a smock of becoming hue, a wide floppy straw hat and one of those fascinating garden baskets raised on a long wicker stick.

All your zinnias, gladiolas, begonias and cannas will simply droop their heads in the face of such a ravishing combination.

Surely Maud Muller must have been thus attired when her judge lingered a bit ere he rode by. Most any good judge nowadays would do the same. Beginning at the top the crowning glory of the garden outfit is the hat; and its only essentials are that it be big, floppy and becoming. Those of the cane chair seat weave are smart, bound in a color to match your smock, with a twist of the same around the crown. Peanut straws, leghorns, panamas and loose grass woven hats are all lovely; and wide brimmed ones covered in flowered cretonne or awning stripes to match your skirt also are good. If you want to go in for Oriental gardening the artistic Coolie hats are perfect, but if you top yourself off thus you will have to taboo the smock and awning stripe skirt, for garments modeled after a Chinese woman's coat and skirt. Otherwise your outfit would not be in perfect accord according to aesthetic Mabel. These Chinese effects really are the very newest spring crop of gardening gear and most original.

The awning stripe skirts this season are not only the broad stripes of a bright color alternating with white, like we had last year, but reveal in a riotous array of colored stripes in four or five hectic hues, like a Bakst ballet. They all are very short and full and button down the front with either yawning slashed pockets set in either side, or puffy pouched ones set on.

The artistic willow baskets set on their long sticks come in either natural coloring or may be stained to suit. They contain of course the most fascinating collection of gardening tools: a trowel whose handle is ray with paint, a pair of shears and your garden gloves. Adorable watering pots blooming with hand painted nosegays, and rakes with well decorated handles are a few other indispensable accessories of the fashionable garden.

Oh yes, and there are quaint and practical garden aprons too, the best model of which are the newest, is of striped material bound in a plain color with a bib and straps over the shoulders.

It is long so that you may stoop in the wet grass without dampening your skirt or your arbor and yet at will it buttons up to a desirable shortness and by this act turns itself into a capacious pocket.

So open up your garden gate Besmoke yourself all up to date And seeds of love will quickly grow In hearts of all who see you so and now.

Blue Ribbon Steel Cut Coffee is a delicious, mild drink that has that rich brown color you don't get in most of coffees. It is an excellent blend of the best South American coffee obtainable, and is packed only in tin foil packages. If we were to pack this coffee in cans, we would not be able to give you the following beautiful articles, as the cans in most of the coffees, cost from 4c to 6c per pound, and they are worthless as they are thrown away as soon as the coffee is consumed.

Be sure to save the wrappers from Blue Ribbon Coffee and Blue Ribbon Uncolored Japan Tea, as they are valuable in getting the following articles:

STATE GEOGRAPHICAL  
NAMES AND THEIR HIS-  
TORICAL SIGNIFICANCE

(Prepared by the Minnesota His-  
torical Society for the  
United Press)

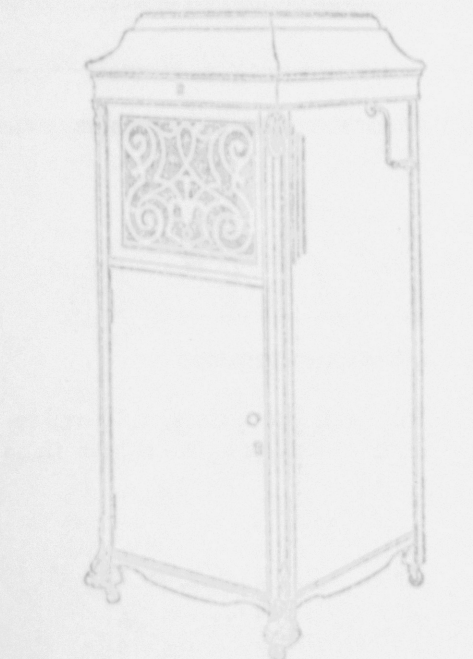

**Clearwater County**  
Two rivers, two lakes, a  
county and a town in Minne-  
sota, the last in Wright county,  
bear the name of "Clearwater,"  
said to be a translation of un-  
pronounceable Chippewa name  
"Gawakomigweia". The river  
and city of Eau Claire in  
Wisconsin bear the name in its  
French form. The Minnesota  
county was formed from Bel-  
trami in 1902. It contains  
Itasca Lake, the source of the  
Mississippi, but the "Ultimate  
source," Hernando de Soto lake,  
lies just across the border in  
Becker County.

CLEAN UP THE CITY

There is no city or town in the  
country that does not need an annual  
cleaning in order to be a sanitary  
place in which to live, and the gen-  
eral renovation should be in compar-  
ison to the house in which you live  
and rear your family. Rubbish, dirt  
and filth will accumulate and in or-  
der to get away from the contaminat-  
ing influence it must be cleaned out.  
The housewife knows how best to  
take care of her domicile but mu-  
nicipal cleaning is sometimes some-  
thing of a conundrum, one of the  
best plans being of a community na-  
ture where a week is designated, a  
general plan adopted and collectors  
named to gather the rubbish and  
take it to the designated place for  
such stuff.

Throughout the entire city, in or-  
der to make it spick and span, the  
paint on house and barn or outbuild-  
ings should be brightened up, yards  
put in order by the application of

--and the ear could not  
tell the difference!

Christine Miller, the famous concert  
contralto, recently made a tour of  
the country singing with the New  
Edison Diamond Disc. Everywhere  
people were held spellbound by this  
daring test of tone re-creation. The  
ear could not distinguish the original  
from Edison's re-creation of it.

The EDISON Diamond

No Needles to Change.

Only Mr. Edison's perfected musical  
instruments could withstand such a

tion but the re-creation of the original  
tone. The actual artist in all her  
artistry.

A test which Edison's re-creation  
of any artist's voice or instrumental  
performance will sustain in actual  
comparison with the artist standing

rahe, hoe and shovel, vacant lots  
cleared of last year's growth of dead  
weeds, and once this is done the city  
will take on a new lease of life, and  
it will be done if every householder  
does what is expected of him.

And there is no reason why this  
plan should not be taken over, it is  
not expensive, the labor entailed need  
not scare one when the benefits are  
taken into consideration—and you  
will all enjoy the result, as much  
from your neighbor's efforts as your  
own.

Clean up Brainerd. Is eminently  
desirable, not so much because of its  
greater attractions, although that  
alone is worth the efforts, but be-  
cause of its increased healthfulness.  
Dirt breeds disease and cleanliness is  
the first principle of sanitation.

So let us all join in the clean-up  
campaign, which will be begun in a  
few days and make this city shine  
like a boy's face after the maternal  
scrub. Let us dig down into dark  
corners of our basements and closets,  
throw out all the old rags and pa-  
pers, wash the fly screens and get  
them in place, get busy with the  
paint brush and then the result will  
be gratifying.

The people of the Sixth district  
have an opportunity to elect a man to  
congress whose knowledge of the  
affairs in this district will make him  
a valuable member, not only to the  
district but to the state and especial-  
ly the northern part of Minnesota,  
and in this respect it may be well to  
add that C. B. Buckman has been  
identified with the upbuilding of  
this section of the state since the  
early pioneer days. He has repre-  
sented his district in both branches  
of the legislature and for several  
terms he closely watched the inter-  
ests of his constituents. So well did  
he serve the people that he was sent  
to the higher position, and repre-  
sented the Sixth district in congress,  
and he now asks the republicans of  
the district to endorse his candidacy  
for a re-election to the place he no  
ably filled. Mr. Buckman's election  
will place a man in congress who  
will be at once familiar with the  
workings and whose knowledge gain-  
ed by his previous term as congress-  
man will be valuable, as he will not  
be obliged to form a new acquaint-  
ance or spend valuable time in be-  
coming familiar with the methods  
employed. This fact, and Mr. Buck-  
man's thorough understanding of  
conditions, was undoubtedly a strong  
factor in the cordial reception that  
his candidacy received when the an-  
nouncement was made that he would  
come before the people of his district  
for their endorsement. Everywhere  
throughout the Sixth district the  
sentiment is strongly in his favor  
and his nomination, which is equiva-  
lent to an election, certainly seems  
assured.

Paint up and clean up is what  
everybody in Brainerd should think  
of at this time of the year. Neat  
premises and nice lawns give an in-  
viting look to strangers—besides as  
a health proposition it can't be beat.

The St. Cloud election for com-  
missioners on Tuesday surprised the  
newspapers of that city as much as  
the city council election of a few  
days ago.

Villa is either turning over in his  
coffin or laughing in his sleeve—and  
most people are inclined to believe  
the latter.

No matter if your taxes have al-  
ways been the lowest notch possible,  
that fact is lost sight of when the  
raise comes.

Oppose Increases in Military Forces,  
but When the Votes Are Counted It  
Is Found That the Idea Has Spread.  
Williams of Mississippi an Example.

By ARTHUR W. DUNN.  
Washington, April 19.—[Special.]—  
Instead of making any headway to-  
ward stopping further military prepara-  
tions the pacifists can see the advance  
toward greater military expenditures  
than ever before.

Discussion of the army bill in the  
senate has only caused men to grow  
more and more pronounced in favor of  
better defenses. While it is acknowl-  
edged that neither the house nor the  
senate bills do much for the army,  
there is a promise that the first line of  
defense—the navy—will be well cared  
for before the appropriation bill finally  
becomes a law.

There are quite a number of men in  
congress who have adhered to their  
opinions and expressed themselves as  
opposed to further military prepara-  
tion, but when the votes are taken it  
is found that the military spirit has  
grown.

A Wonderful Conversion.

It is probable that no man has made  
more speeches in favor of peace and  
against military preparation than Sen-  
ator Williams of Mississippi. When  
minority leader of the house he ridicu-  
led every naval bill and voted  
against battleships on many occasions.  
And yet only the other day when  
speaking on the military bill he de-  
clared that neither the house nor the  
senate nor any committee could bring in  
a naval bill that he would not vote to  
increase. He asserted that every ship-  
yard in the country ought to be set to  
work; that half a dozen of the largest  
battleships ought to be authorized and  
built at once and at least a dozen bat-  
tle cruisers and 100 submarines should  
be added in the shortest possible time.  
These ought to be completed by the  
end of the present war in Europe, as-  
serted Williams. He believes that the  
victor will be likely to make demands  
upon this country which will need the  
largest possible navy to resist.

Two Friends of Lewis.

Of course while we are talking about  
war we might also let what little hu-  
mor comes along seep into it. James  
Hamilton Lewis was a colonel's uni-  
form during the Spanish war, and he  
spoke of two brother colonels:

"There are two of my eminent  
friends, with both of whom I have  
had pleasurable service—Colonel Roose-  
velt, the leader of one school of  
thought on national preparedness or  
this question of fight, and Colonel Wil-  
liam Jennings Bryan. I think we  
could define Colonel Roosevelt's atti-  
tude as 'Fight anybody, anywhere, for  
anything.' On the other hand, of Col-  
onel Bryan we may say his attitude  
might be termed, 'Fight nobody, no-  
where, for nothing.'"

Under Suspicion.

"We ought not to disguise ourselves  
to the fact that our river and harbor  
bills are under suspicion." Minority  
Leader Mann told the house one day.  
He then went on to say that a few  
items in the river and harbor bill en-  
couraged that suspicion. He meant by  
suspicion that members of congress  
were inclined to vote for pork barrel  
bills, for logrolling propositions for  
their own districts.

Well, let a bill come forth squarely  
and without any agreement, and we  
would find that not one item in ten in  
the river and harbor bills would ever  
have passed on its own merits any more  
than hundreds of public buildings bills  
would have passed as separate bills.

Resented Militia Activity.

Quite a number of senators resented  
the rather peremptory messages they  
received from militia officers in regard  
to the volunteer army provision in the  
Chamberlain bill. Senator Nelson of  
Minnesota was among the number.  
Speaking of the subject, he said:  
"In all my experience here I have  
never seen an instance of such bald  
lobbying as there has been by these  
outside influences to defeat this sec-  
tion of the bill."

More Platform Talk.

Senator Thomas of Colorado is dis-  
couraged in regard to carrying out one  
plank in the Baltimore platform, that  
relating to economy. Republican sen-  
ators remind him about it from time  
to time, and they always get a rise.  
He responds readily enough and says  
that he has given up hope, as only  
about two senators ever support him  
when he tries to be economical.

Hoping For the Best.

Some one has called attention to the  
long period that our forces remained  
in Mexico in the forties before they  
accomplished results and how it was  
necessary to arm and equip a large  
army. Just now we have been wonder-  
ing how the small force could  
hunt down the bandits, especially when  
they have so many sympathizers. We  
hope for the best. At the same time  
there has been apprehension that a dis-  
aster might come to our troops.

Notice is hereby given that a peti-  
tion praying for the establishment of a  
judicial highway between Aitkin  
and Crow Wing Counties will be pre-  
sented to Honorable W. S. Mc-  
Clenahan, one of the judges of the  
Fifteenth Judicial District, at his  
chambers in the First National Bank  
Building, in the City of Brainerd,  
Crow Wing County, Minnesota, on  
the 10th day of June, 1916, at 12  
o'clock noon of said day. That at  
said time and place said court will  
be asked to appoint three commis-  
sioners to lay out said highway as  
provided by law. A true copy of  
said petition is as follows:

State of Minnesota, County of Ait-  
kin.

District Court, Fifteenth Judicial  
District.

In the matter of the petition for a  
Judicial Highway between Aitkin  
and Crow Wing counties. Petition.

To the Hon. Judges of the Dis-  
trict Court in and for the Fifteenth  
Judicial District, State of Minnesota:

We, the undersigned, legal voters  
and tax payers, residents of said  
Aitkin and Crow Wing Counties,  
hereby respectfully petition the  
Court for the establishment of a Ju-  
dicial Highway on the county line  
between said Aitkin and Crow Wing  
Counties, which said proposed Judi-  
cial Highway is described as follows,  
to-wit:—

Commencing at the North West  
corner of Section 28, Township 59,  
Range 27, in said Aitkin County,  
which point of commencement is also  
the South West corner of Section  
21, Township 59, Range 27, in said  
Aitkin County, and running thence  
South on the county line between  
said Aitkin and Crow Wing Counties,  
said county line being also the sec-  
tion line between Sections 28 and 23,  
Township 59, Range 27, Aitkin coun-  
ty, and Sections 4 and 9, Township  
49, Range 27, Aitkin County, and  
Sections 1, 12, 13 and 24, Township  
138, Range 25, in Crow Wing Coun-  
ty, a distance of 3 1/2 miles to the  
South East corner of Section 24,  
Township 138, Range 25, in Crow  
Wing County, which point is also the  
North East corner of Section 25,  
Township 138, Range 25, in said  
Crow Wing County and said proposed  
Judicial Highway there terminating.

We, therefore, pray that the Court  
will appoint three Commissioners to  
lay out said Highway under and  
pursuant to the provisions of Chap-  
ter 13 of the Revised Laws of Min-  
nesota, 1913, and that said Commis-  
sioners be empowered to lay out  
said Highway in accordance with  
said provisions.

Respectfully submitted,  
Aitkin County

Proceedings in Bankruptcy

In the District Court of the United  
States, For the Fifth Division, Dis-  
trict of Minnesota.

In the matter of Gustav Sands,  
bankrupt, in bankruptcy.

To the Honorable Page Morris,  
Judge of the district court of the  
United States for the District of  
Minnesota:

Gustav Sands, of the City of  
Brainerd, in the county of Crow  
Wing and State of Minnesota, in said  
district, respectfully represents that  
on the 18th day of June, A. D. 1915,  
he was duly adjudged bankrupt un-  
der the acts of Congress relating to  
bankruptcy; that he has duly sur-  
rendered all his property and rights  
of property, and has fully complied  
with all the requirements of said  
acts and of the orders of the court  
touching his bankruptcy.

Wherefore, he prays that he may  
be decreed by the court to have full  
discharge from all debts provable  
against his estate under said bank-  
rupt acts, except such debts as are  
excepted by law from such discharge.  
Dated this 18th day of April, A.  
D. 1916.

GUSTAV SANDS,  
Bankrupt.

United States District Court, Dis-  
trict of Minnesota, Fifth Division.

On this 18th day of April, on read-  
ing the foregoing petition it is

Ordered by the court that a hear-  
ing be had upon the same on the  
28th day of May, A. D. 1916, before  
said court, at Duluth, in said dis-  
trict, at ten o'clock in the forenoon;  
and that notice thereof be published  
in the Brainerd Dispatch, a news-  
paper printed in said district, and  
that all known creditors and other  
persons in interest may appear at  
the said time and place and show  
cause, if any they have, why the

## SAGE TEA DANDY TO DARKEN HAIR

It's Grandmother's Recipe to  
Bring Back Color and  
Lustre to Hair.

You can turn gray, faded hair beau-  
tifully dark and lustrous almost over-  
night if you'll get a 50-cent bottle of  
"Wyeth's Sage and Sulphur Compound"  
at any drug store. Millions of bottles of  
this old famous Sage Tea Recipe, im-  
proved by the addition of other ingredi-  
ents, are sold annually, says a well-  
known druggist here, because it darkens  
the hair so naturally and evenly that no  
one can tell it has been applied.  
Those whose hair is turning gray or  
becoming faded have a surprise awaiting  
them, because after one or two applica-  
tions the gray hair vanishes and your  
locks become luxuriantly dark and beau-  
tiful.

This is the age of youth. Gray-haired,  
unattractive folks aren't wanted around,  
so get busy with Wyeth's Sage and Sul-  
phur Compound to-night and you'll be de-  
lighted with your dark, handsome hair  
and your youthful appearance within a  
few days.

This preparation is a toilet requisite  
and is not intended for the cure, mitiga-  
tion or prevention of disease.

WEEK OF MAY 14th

"THE BIRTH OF A NATION"

## THEATRE TRAIN COMING 7:45 P. M.

"The Only Girl" plays at the Brainerd opera house this evening. It has been well advertised in territory tributary to Brainerd.

Brainerd should patronize "The Only Girl" show, for the management evolved a new idea in the line of specials by adding coaches at Staples and carrying theatre-goers from the division town and intervening points to Brainerd to see the show.

"The Only Girl" is a musical comedy of the best kind, and Brainerd and vicinity tonight have the pleasure of seeing the same attraction extensively advertised for Duluth, St. Paul and Minneapolis.

There are fourteen musical numbers and each is a veritable gem.

The story concerns principally a young bachelor, a confirmed woman hater who eventually succumbs to the charms of a young woman with whom he is associated in business and this much against his will.

### SOMEbody MAY BLOW UP

Vandals Stealing Things Right and Left at the Seafeld Exploration Co. Drill in City

The Brainerd Townsite Co. has a drill operating in the Cuyuna Range Addition just east of the Northern Pacific railway shops, the drilling contract being executed by the Seafeld Exploration Co.

This morning Wm. Seafeld, head of the company, visited the Dispatch office and complained of the vandals who are stealing everything except the hole at the drill site.

A tool box had also been broken open and dynamite caps and dynamite appropriated, wrenches stolen, pipe abstracted, etc.

"I have drilled on the Mesaba and been on many ranges, but nowhere have I encountered such petty thieving as the Brainerd drill location. In taking caps and dynamite somebody is liable to blow himself up."

The drill has attained a depth of 112 feet. John Wahl, of the company, visited the location yesterday, but no word has yet been given out as to the results attained.

The petty thieving has been called to the attention of Sheriff Claus A. Theorin and Chief of Police Henry Squires and something will be done to stop the depredations.

### BRAINERD'S ODDEST STORIES TODAY

A Brainerd fishing party came to grief last night near Borden lake. Accompanying Will Turcotte of Turcotte Bros. and riding in the grocery motor truck were A. P. Dracoth, Al Mraz and others.

Near the lake they stripped the gears of the car and stranded and have been there since last night. It is not known how many fish they caught, although some experts say they haven't got a single fish.

Mr. Gruehagen reports that 75 mowers, 24 binders, and other farm machinery, a total of 150 pieces of "Minnesota" make have been sold the farmers of Crow Wing county in the last three years and that the "Minnesota" brand, made and sold in Minnesota, gives universal satisfaction.

## SEEK TO AVERT RAILROAD STRIKE

Duluth Commercial Club Resolutions are Unanimously Adopted at Meeting

THEY FAVOR ARBITRATION

Railroad Companies are Expected to Reply to Eight Hour Demand by April 29th

One of the chief matters that came up for discussion before the Duluth Commercial club, says the Duluth Herald, was the matter of the impending railroad strike.

A communication from the Chicago Association of Commerce, inclosing a copy of a resolution adopted by that organization, was received, in which action was urged by the Duluth club in the way of a resolution similar to that of the eight-hour day matter, which is the question in dispute between the railroads and their employees, be arbitrated and the business of the country not tied up by a strike. G. Roy Hall, traffic commissioner, urged that a similar resolution be adopted and copies sent to the proper parties. R. B. Knox was against it unless the time was so short as to be urgent. W. A. McConaghe said that the railroad companies are expected to reply to the eight-hour demand by April 29. Mr. Hall then made a motion to adopt such a resolution and it carried, Mr. Knox being the only one to vote against it. The resolution reads as follows:

"Whereas, certain grave differences are impending between the railroads of the United States and their train service employees which, if not adjusted, threaten to result in a serious interruption of railroad transportation; and

"Whereas, arbitrary action on the part of either side, without the disputed questions arising from the demands of both sides being submitted to a careful and impartial investigation, would be inimical to the public; and

"Whereas, a railroad strike, even temporarily interfering with traffic operations throughout the country, would be a national calamity, entailing a loss upon the public far greater than the loss to the parties to the controversy; be it therefore

"Resolved, that it is the sense of the Duluth Commercial club, if the parties to the controversy do not reach an agreement through direct negotiations, that both parties to the controversy should submit their differences to an impartial board of arbitrators for the readjustment of all causes of differences between them with due regard to the interests of the public."

A special meeting of the Chamber of Commerce of Brainerd this evening will consider the adoption of resolutions also urging arbitration. All members are urged to be present, for in case of a big strike the general public will be the first to feel the effects of a tieup.

### GOOD MONEY MAKERS

Farm Gardens Bring in an Income of at Least \$50 and Reduce the Cost of Living

A good garden on the farm means an income of at least \$50. There are more than 150,000 farms in Minnesota. The total income from 150,000 farm gardens should, therefore, be more than \$7,500,000.

The Illinois Experiment Station by five years' experiments with a half-acre garden showed that the actual income in excess of expenses was about \$160. The estimate for Minnesota is only half the actual returns in Illinois.

A good garden should supply the family table during the growing season, fill the storeroom for the winter and give ample material for canning by the cold pack method.

The soil should be rich and free of weeds. If the soil is poor, it may be enriched with rotted yard-manure. Good seeds should be obtained and planted in rows not too far apart. The soil should be cultivated to hold weeds in check. A succession of the various vegetables is desirable—sweet corn, lettuce, radishes and carrots.

For 1916 reduce the cost of living by getting more out of the garden—right out of the soil.

Rev. H. G. Stacey to Speak on Subject, "Jesus As a Healer," Evening Service 7:30

At St. Paul's Episcopal church service this evening at 7:30 o'clock, the Rev. H. G. Stacey will speak on the subject of "Jesus as a Healer." A study in Christ's method of healing as revealed in the healing of a paralytic.

In this case Jesus pointed to a moral cause at the back of the physical disease, a most important fact which is too often forgotten today. All are welcome to the service which will be brief.

## NORTHWEST NEWS

St. Paul, Minn., April 19—Although the duck season in Minnesota closed last December, there are five cases before the state game commissioners today, alleging that ducks were hunted and killed in Minnesota this month.

St. Paul, Minn., April 19—F. B. Kellogg of Minnesota, candidate for senator, will deliver the commencement address at Hamline university here, it was announced today.

St. Paul, Minn., April 19—Two hundred cases of measles have been reported in St. Paul thus far this month.

Souris, N. D., April 19—Gondolas may be ordered by Souris people, because creek floods show little chance of receding. Venice has nothing on this little city for water communication.

St. Paul, Minn., April 19—J. A. Wessel, Crookston, Minn., was in his chair as United States district marshal today. He succeeds W. H. Grimshaw, Minneapolis, who held the job for 17 years.

St. Paul, Minn., April 19—Although he insisted that the act was nothing unusual, Adj. Gen. F. B. Wood of the Minnesota National Guard, today inspected all supplies and equipment of the guard.

St. Paul, Minn., April 19—Whether the sleeping grounds of the dead in Minnesota are exempt from local assessments, is being argued before the supreme court today. The case is a Ramsey county case that was appealed.

St. Paul, Minn., April 19—What may be a Minnesota timber scandal was given an official airing at the capitol today. Gov. Burnquist had invited the surveyor general of logs and lumber at Duluth to meet the timber board in special session here.

Allegations had been made that the Rat River Lumber Co., in Koochiching county, had been permitted to cut four times as much timber as has been reported cut by the scalers.

Crookston, Minn., April 19—With seeding in full blast here today, it was estimated that 40 percent of the farmers in this fertile valley will be seeding by next week.

### PREVENT THE BREEDING

Flies are a Menace to any Community and by Preventing Breeding you Destroy First Hand

You can prevent the breeding of flies easier than you can kill them or screen them out. To control their breeding places one must not only clean up in the spring but keep at it all summer. Is the warning issued by Dr. L. J. Murphy of the Minnesota Public Health Association.

"These two things should always be done—food stuff should be kept from flies and flies should be kept from babies."

"The early fly should be swatted or trapped. A simple and effective trap may be made by placing wire netting on two sides of an ordinary box, cutting a round hole in the box and inserting in it a wire cone which has about an eight inch opening at the bottom and one-half inch opening at the top. The Hodge trap has also proven to be a satisfactory fly exterminator. It is possible to prevent the few that may exist from doing much harm. Typhoid fever, child diarrhoea and other diseases are commonly caused because flies have been allowed to besmeer themselves in some unscreened privy vault or other

## The Strange Case of Mary Page

The Great McClure Mystery Story, Written by FREDERICK LEWIS, in Collaboration With JOHN T. MINTYRE, Author of the Ashton Kirk Detective Stories

Read the Story and See the Essanay Moving Pictures

Copyright, 1915, by McClure Publications

### SYNOPSIS.

Mary Page, actress, is accused of the murder of James Pollock and is defended by her lover, Philip Langdon. Pollock was intoxicated. At Mary's trial she admits she had the revolver. Her maid testifies that Mary threatened Pollock with it previously, and Mary's leading man implicates Langdon. How Mary disappeared from the scene of the crime is a mystery. Brandon tells of a strange hand print he saw on Mary's shoulder. Further evidence shows that horror of drink produced temporary insanity in Mary. The defense is "repressed psychosis." Witnesses described Mary's flight from her intoxicated father and her father's suicide.

### THE NURSE'S STORY

LANGDON, opening the door of the witness-room, glanced in. A sharp little frown of anxiety etched two fine vertical lines between his eyes; but at sight of the tall, trimly clad woman talking to the doctor a smile of relief replaced the scowl. He came forward eagerly.

"Thank goodness you were able to get here," he said, taking her hand in both of his. "It means so much to us to have you; but I didn't like to insist, or call the law to my aid. How is the recalcitrant patient?"

"Oh, the patient is doing splendidly, thanks," she answered with a smile. "but I should have come anyway, duty or no duty. How is Miss Page bearing up?"

"Very bravely, all things considered," said Langdon; but now his tone was grave with a hint of wistfulness.

Another day of the trial was begun. As on the day before, so fraught with terrible revelations, it was Mrs. Page who was the first witness.

"I have only a few questions, Mrs. Page," said Langdon gently. "How long after your husband's death was it that you learned the whereabouts of your daughter?"

"It may have been an hour—or perhaps less. A letter came from Philip and said, 'Don't worry. Mary is safe in Dr. Jamison's home. For obvious reasons I advise you not to come here till later. Will then explain all.' I went and got my hat and cloak to go to her, but James Pollock drove up in his automobile just as I was going down the path to the gate. He said he hated to disturb me at such a time, but that I must remember that Mary was his fiancée, and he was getting—"

### BRITISH CABINET CRISIS

Several Resignations May Soon Be Forthcoming.

London, April 19.—That a grave cabinet crisis exists is undeniable, but, according to an authoritative statement, no resignations, either ministerial or military, have yet been tendered and it will probably be several days before the crisis is ended.

The Marquis of Crewe, lord president of the council, in his statement to the house of lords, which was the first official admission of the gravity and complexity of the problems dividing the ministers, intimated the possibility that Premier Asquith might not be prepared even on Thursday to make his promised statement, in which case the house would set the following Monday.

ONCE FAMOUS ARTIST COM-  
MITS SUICIDE.  
Chicago, April 19.—Despondency is believed to have been the cause of the suicide in a shabby studio here of Francis Cavallaro, a painter once widely known abroad. According to newspaper clippings found in his room the artist was honor guest at a reception in London given by the Italian ambassador when Cavallaro's portrait of the king of Italy was unveiled.

### CHINESE DECLARE TRUCE

President Yuan and Rebel Leaders Begin Peace Negotiations.

Washington, April 19.—An armistice has been declared between Chinese rebels and President Yuan Shi Kai and peace negotiations are in progress, the state department has been officially informed. Prominent leaders of both factions are endeavoring to reunite the provinces.

## MEXICAN TROUBLE LIKE INDIAN WAR

Army Still Has Officers With This Kind of Experience.

### WATER SUPPLY A PUZZLE.

Far More Difficult Task to Capture Cuban and Philippine Leaders Than It Is to Run Down the Outlaws of Mexico—Entire Country Has Been Taught to Hate Americans.

By ARTHUR W. DUNN.

Washington, April 19.—[Special.]—There are a few army officers still on the active list who know something about Indian fighting. They took part when they were youngsters in the last of the Indian wars, if such they could be called. Many of the officers had experiences in Cuba and the Philippines, but they know that neither their opponents in the Philippines nor in Cuba were any such wilderness fighters as the Indians.

The Mexicans more nearly resemble the Indian fighters. They also have the advantage of inhabiting the same kind of country, even a worse country for the movement of troops, for there were facilities for obtaining water in the wild Indian country of a quarter of a century ago that are not found in the Mexican country where the American troops have been operating in pursuit of Villa.

Hard Task For the Army.

Some of us may remember that it was a hard task which General Funston performed when he captured Aguinaldo, but at that time the Philippines had about enough fighting. Aguinaldo was about ready to quit, and many of his followers were willing to help along his capture in order to end the warfare. It will be a long time before that condition arises in Mexico. Those Mexicans have been taught to hate the Americans. They are best in the guerrilla-like warfare which they are following, and they have done everything to make the capture of Villa one of the hardest tasks the army has faced for years.

Overplayed the Pipe Dream.

The fellow who wrote the story and made Roosevelt president, Root secretary of state, Lodge secretary of war and Bacon secretary of the treasury and Gardner secretary of the navy overplayed what might have been a first class pipe dream. If he had stopped after making Root secretary of state the country would have swallowed it, for there is a general desire in these times to have a man like Root secretary of state. Some of Roosevelt's friends proposed that much of a combination as long ago as last spring.

But every other suggestion was absurd. Lodge would not leave his easy life in the senate for a hard working cabinet job. Roosevelt would not have a firebrand like Gardner in his cabinet. As to Bacon—well, Roosevelt will have a politician at the head of the treasury if he is again president.

Militia Wins.

Everybody might have expected that the militia would win in the contest with the regular army in legislation for preparedness. The regular army has no political pull and no votes; the militia has both. Military experts can prove by the facts and figures that the regular army is the best fighting force, but the politicians can prove that the militia is the best political force; hence the militia has won most of the points thus far in the preparedness program. Garrison knew that would happen when he lost the president's support for his scheme of army legislation.

The "k" and Preparedness.

Nearly every man who wanted something in the river and harbor bill insisted that it was in line of helping preparedness. When Congressman Rogers of Massachusetts insisted that there should be a letter "k" added to the name of the river Merrimac in his state Congressman Sims of Tennessee said:

"I shall oppose the amendment unless the gentleman says it is done in the interest of preparedness. We are not asking anything that does not include national preparedness."

Marshall and the Rules.

Vice President Marshall breaks into the proceedings of the senate once in awhile and reads the rules and declares his intention of enforcing them, but he never succeeds. The senate rules cannot be enforced. They would block all business. As Marshall remarked the other day, they "are more honored in the breach than the observance."

Locking the Doors.

"The doorkeeper will lock the doors, and the clerk will call the roll." That announcement is made by the speaker time after time when it is found that no quorum is in the house after the point has been made. And the doorkeeper locks the north, east and west doors. Those reaching the corridor, four in number, on the south side are left open. Then there is a door opening from each cloak-room on the north side of the hall into the corridor, and members step out of them without hindrance. In fact, members come and go at will. The "locking of the doors" is an old formality and means absolutely nothing.

### BUYING HORSES IN IOWA

Entente Allies Place Order for 15,000 Animals in Des Moines.

Des Moines, April 19.—Orders from agents of the entente allies for 15,000 horses have been placed with a local firm, it was learned. The horses, it was said, were to be used for the light artillery and will be sent immediately to the various battle fronts.

Close German Shops in Samoa.

Pago Pago, American Samoa, April 19.—The British administration of German or Western Samoa, is closing all German business places. The properties are being disposed of by auction or sold privately at great sacrifices.

## TREBIZOND IS IN RUSSIAN HANDS

Port on Black Sea Is Taken From Turks.

### MANY OBSTACLES OVERCOME

Petrograd Announces Fall of City in Asia Minor After Combined Land and Sea Attack—Great Britain Is Confronted by Cabinet Crisis.

Petrograd, April 19.—Trebizond, the most important Turkish city on the Black sea, has been captured by the Russians.

The fall of Trebizond is confirmed in the following official communication just issued:

"Trebizond has been taken. The united energetic efforts of our Caucasian army and Black sea fleet have been crowned by the conquest of this fortified town, the most important position on the Anatolian coast.

"Our valiant troops, after the sanguinary battle of April 14 on the Kara Dere river, pressed the Turks without respite and surmounted incredible obstacles, everywhere breaking the fierce resistance of the enemy.

"The well combined action of the fleet permitted the execution of most hazardous landing operations and lent the support of its artillery to the troops operating in the coastal region.

"Credit for this fresh victory also is partly due to assistance given the Caucasian army by the troops operating in other directions in Asia Minor. By their desperate fighting and heroic exploits, they did everything in their power to facilitate the task of the detachments on the coast."

Trebizond is a city of Asia Minor on the Black sea, 575 miles east of Constantinople and 100 miles north of Erzerum, the town stormed by the Russians Feb. 16.

Trebizond has a population of about 40,000, including 18,000 Christians.

The importance of the Black sea port is due to its command of the point where the chief trade route from Persia and Central Asia descends to the sea.

## MORE TROOPS BEING SENT INTO MEXICO

San Antonio, Tex., April 19.—General Funston is sending General Pershing more than 2,000 additional troops and there is reason to believe that even more will be placed at the disposal of General Pershing if the campaign against Francisco Villa is continued.

The troops which have been ordered to Pershing's base at Columbus are on duty along the border.

What troops will relieve them and where they will come from remains unannounced.

It may be that the war department will have to authorize the sending of the few remaining troops in the United States into this department, or it may be that the filling of the vacant points along the border may be left to the government of Texas, which may send the militia.

### CITY MAY PENSION WIDOWS

Gotham Board of Aldermen Favors \$300,000 Appropriation.

New York, April 19.—A municipal movement to provide pensions for widowed mothers with children was begun with the adoption by the board of aldermen of a resolution, under which would be appropriated \$300,000 to be placed at the disposal of the child welfare board.

If the resolution is acted on favorably next week by the board of estimate the proposed allowances will be granted.

### MORE TRACK SPACE SOUGHT

Railroad Employees Point Out Danger in Yards.

Washington, April 19.—Representatives of railroad employees organizations urged the house interstate commerce committee to approve legislation empowering the interstate commerce commission to regulate clearance space about railroad tracks. They pointed out the increased size of locomotives and other equipment endangered the lives of employees.

## The Proof

DON'T accept claims or opinions. Every man selling an automobile will tell you his car can be run at low cost.

He'll tell you this because he knows and you know that gasoline, oil and tires are costing more and more all the time. He knows and you should know that the operating cost of any automobile during five years' time is worth your careful consideration

We don't give you any guesswork. We tell you what we know. We state the facts and figures—proved and verified figures. Here they are:

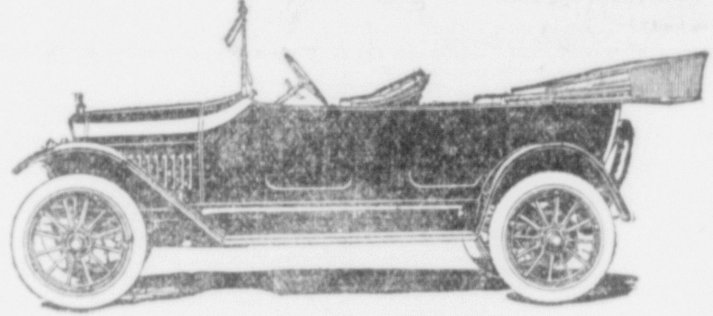

Maxwell World's Non-Stop Record Facts	
Miles without a motor stop.....	22,023
Average miles per day (44 days).....	500.6
Miles per gallon of gasoline.....	21.88
Miles per gallon of oil.....	400
Average miles per tire.....	9,871

Most Maxwell owners get even better results than these but we are just giving the actual figures set when the Maxwell stock touring car broke the World's Motor Non-Stop Record.

When you get your Maxwell you can be sure it will give you economical service—probably far more economical than these figures indicate. But to be sure that you can get your Maxwell, ORDER NOW.

If you prefer, make a small deposit and pay the balance as you use the car.

## SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it is not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.
